Re: Uranium Tailings Relocation Project, Small Fry Mine, M/037/022, San Juan County, Utah

Dear Mr. Reams:

Thank you and Mr. Lobato for your assistance during our August 18, 1994, inspection of the Small Fry Mine and the ongoing tailings relocation project. At that time, approximately 80% of the tailings material had been relocated. We were pleased with the overall status of the project at that time. Your management of the project and the measures taken to insure the safety of your workers and the general public are admirable. Please find enclosed a copy of our inspection memo for your files. We look forward to examining the finished project sometime in the near future.

Best wishes in your future mine reclamation endeavors.

Sincerely,

Anthony A. Gallegos
Reclamation Engineer
